

## WHAT DO YOU VALUE?

*No matter what your spending type, here are some questions to ask yourself when buying anything and everything.*

Am I suffering or frustrated by not being able to buy things I need because I've bought things I want?

Will I be happy with my purchase a year from now? 5 years from now?

What are my other options?

Does \_\_\_\_\_ fit into my plan?

How many hours/days do I have to work to afford a(n) \_\_\_\_\_?

What would I do with the extra money if I buy a less expensive \_\_\_\_\_?
